Hybrid Bus Workshop for K-12 Educators

MARK YOUR CALENDAR! REGISTER TODAY!

SEPTEMBER 18, 2012 - Hampton Inn, Pikeville, KY

SEPTEMBER 20, 2012 - Carroll Knicely Conference Center, Bowling Green, KY

Kentucky Clean Fuels Coalition and the National Energy Education Development (NEED) Project have partnered to provide two area teacher workshops. We believe it is important to provide energy professional development opportunities for classroom teachers and to provide engaging and exciting energy curriculum for students in today's classrooms.

WORKSHOP BENEFITS AND RESOURCES

No cost to attend the workshop, thanks to the sponsorship of Kentucky Clean Fuels Coalition.

Breakfast and lunch provided.

Substitute reimbursement included. Substitute reimbursement forms are provided at the workshop. Schools/Districts will be reimbursed for the substitute.

Free use of a NEED Science of Energy Rental Kit designed to teach the concepts of force, motion, light, sound, heat, electricity, magnetism, and energy transformations through hands-on activities.

REGISTER ONLINE NOW

(Please register by September 12, 2012)

September 18, 2012 Workshop: www.regonline.com/needkfcpikeville

KCFC Welcomes Newest Gold Member - City of Somerset

The City of Somerset is KCFC's newest Gold member. They installed CNG refueling for their municipal fleet this summer. [Read about the project.](#)

Appeals Court Upholds E15

The U.S. Appeals Court for the District of Columbia Circuit has sided with the Environmental Protection Agency (EPA) and upheld its partial waiver approval for E15 ethanol fuel for model year 2001 and newer light duty vehicles and all flex fuel vehicles following multiple legal challenges.

So far, one station in Lawrence, Kansas has started selling E15 under the conditions set by the partial waiver. The challenge to EPA's waiver was filed by the Grocery Manufacturers Association.

KCFC News is a newsletter for KCFC members and interested parties.
