TARC Receives Grant to Expand ZeroBus Fleet

TARC will add five more [all-electric ZeroBus vehicles](#) to the fleet thanks to a \$3.3 million grant announced today in Louisville by Federal Transportation Administration officials.

At a news conference at Louisville Slugger Field, a stop on the Main-Market ZeroBus route, TARC was highlighted as one of ten transit agencies in the country to be awarded funding for low or no emission vehicles in a competitive grant selection process.

About Us

The Kentucky Clean Fuels Coalition was established in 1993 to provide the first alternative fuels resource for Kentucky educators, consumers and providers of alternative fuels/vehicles. It is now a successful non-profit 501C3 self-supporting organization and a national leader in the clean fuels market.
