UPS Becomes Nation's Largest User of Renewable Natural Gas in Shipping Industry

New Agreement with Clean Energy Will Help Grow Market for Use of Methane Gas from Landfills as Fuel

UPS® (NYSE:UPS) announced it has entered into an agreement to purchase renewable natural gas (RNG) for its delivery vehicle fleet from Clean Energy Fuels Corp. (NASDAQ: CLNE). The deal signifies UPS's plan to significantly expand its use of renewable natural gas

for its alternative fuel and advanced technology fleet. The company has a goal of driving one billion miles using its alternative fuel and advanced technology fleet by the end of 2017.

About Us

The Kentucky Clean Fuels Coalition was established in 1993 to provide the first alternative fuels resource for Kentucky educators, consumers and providers of alternative fuels/vehicles. It is now a successful non-profit 501C3 self-supporting organization and a national leader in the clean fuels market.
