

Carrollton Utilities Celebrates Natural Gas Fleet Additions

Carrollton Utilities has opened the third public CNG fueling station in Kentucky and added two CNG powered Ford F250s to their fleet. The new station and vehicles were featured today at Carrollton Utilities' Annual Customer Appreciation Day held at their headquarters 225 6th St Carrollton, KY. The station has the capacity to fill four vehicles at once. Two additional CNG trucks are on order with delivery anticipated first quarter of 2014.

Carrollton Utilities' fleet consists of 18 light duty trucks.

The event was held at the headquarters from 11:00am to 2:00pm with an expected turnout between 800 and 1,000 people. Carrollton Utilities provided lunch for their customers and information about their programs and initiatives. Carrollton Utilities is a municipal utility providing the local community with natural gas, water, and sewer service. They serve 2,400 natural gas customers with an annual volume totaling nearly 10 bcf (billion cubic feet).

Their natural gas output is comparable to cities such as Knoxville, TN.

Club Lounge

When: 10:00 am - 1:00 pm et

KCFC Members at Delta Nu Alpha Professional Fraternity Meeting

KCFC members spoke to Delta Nu Alpha - professional fraternity - in Louisville Thursday.

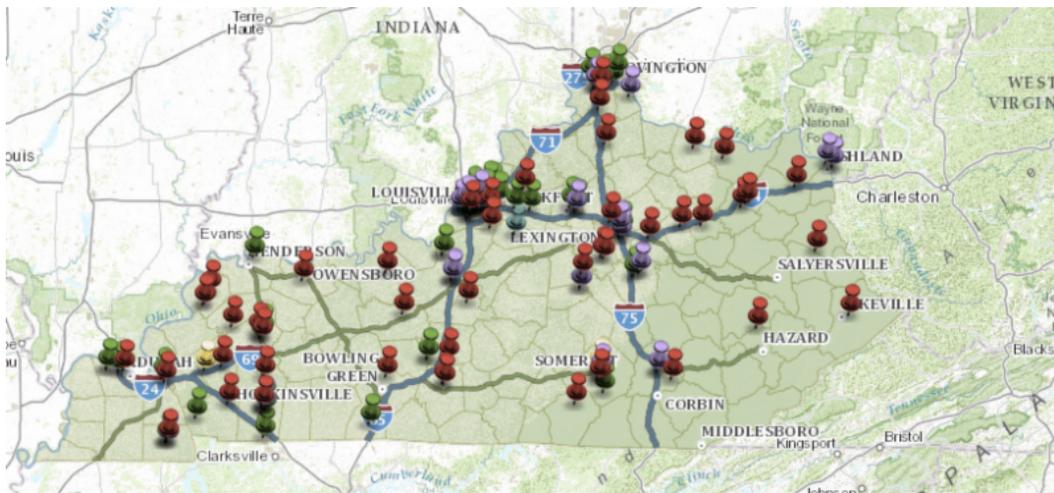

"Fueling the Transportation Fleet of the Future" featured Don Hayden, M&M Cartage, Brian Wallace, Cummins, Nick D'Andrea, UPS, Chris McDonough, Freightliner. The discussion highlighted the financial and environmental benefits of moving to natural gas and away from diesel. They were able to show true ROI for natural gas trucks and provide forecast of fuel cost through 2020.

Don Hayden brought one of his fleet's new 12 Liter CNG Class 8 trucks for the attendees to have a first hand look. The trucks bear the logo of Natural Gas for the Bluegrass. Hayden has 11 CNG trucks in operation with twenty on order.

Alternative Fuel Stations on GIS Map

The Kentucky Division of Geographic Information has added alternative fueling stations to their website.
